

RESOLUTION NO. 2017 - 97

A RESOLUTION BY THE BOARD OF COUNTY COMMISSIONERS OF ST. JOHNS COUNTY, FLORIDA, AUTHORIZING THE COUNTY ADMINISTRATOR, OR DESIGNEE, TO PURCHASE AND TO EXECUTE A PURCHASE ORDER FOR TECHNOLOGY UPGRADES FOR COURTROOM/JAIL FIRST APPEARANCES

RECITALS

WHEREAS, the County desires to enter into a contract with CCS Presenting Better Solutions Inc. to purchase and install equipment for upgrades for first appearances to be used in court rooms 255, 264, 216, courtroom annex and the jail; and

WHEREAS, through the County's procurement policy, CCS Presenting Better Solutions, Inc. was selected as the single source most qualified to provide and install the equipment referenced above at a price of \$155,185.50; and

WHEREAS, purchase of the equipment is being funded by the Court Administration Department; and

WHEREAS, the County finds purchasing the equipment serves a public purpose.

NOW, THEREFORE BE IT RESOLVED BY THE BOARD OF COUNTY COMMISSIONERS OF ST. JOHNS COUNTY, FLORIDA:

Section 1. The above Recitals are incorporated by reference into the body of this Resolution and such Recitals are adopted as finds of fact.

Section 2. The County Administrator, or his designee, is hereby authorized to contract with CCS Presenting Better Solutions, Inc.

Section 3. The County Administrator, or his designee, is further authorized to execute a Purchase Order with CCS Presenting Better Solutions, Inc. on behalf of the County for the purchase of equipment for upgrades for first appearances to be used in court rooms 255, 264, 216, courtroom annex and the jail in the amount of \$155,185.50.

Section 4. To the extent that there are typographical and/or administrative errors that do not change the tone, tenor, or concept of this Resolution, then this Resolution may be revised without subsequent approval by the Board of County Commissioners.

PASSED AND ADOPTED by the Board of County Commissioners of St. Johns County, Florida, this 21 day of March, 2017.

ATTEST: Hunter S. Conrad, Clerk
By: *Pam Halterman*
Deputy Clerk

BOARD OF COUNTY COMMISSIONERS OF ST. JOHNS COUNTY, FLORIDA
By: *[Signature]*
James K. Johns, Chair

RENDITION DATE 3/23/17

Scope of Work

Created For:

St John's County Courthouse

New AV Systems for CR 255 & 264, Video Conferencing addition in 216, and upgrades in the Annex and First Appearance

2/26/17

Prepared by: Dan Phillips

Company Profile

In operation since 1990, CCS Presentation Systems, Inc. has expanded from a single sales representative into one of the world's largest dealers of visual communications technology. With offices across the nation, CCS has emerged as the preferred supplier of professional audiovisual systems to commercial, government and educational markets.

With CCS, you can expect a presentation system that's tailored to your unique application and requirements. We will take the time for a detailed analysis that will match equipment and systems to real world situations. CCS is committed to providing solutions that meet your specifications.

The dynamic partnerships we enjoy within the A/V equipment industry allow us to support today's finest equipment in every imaginable environment. CCS designs, programs, builds, installs, and services each system - from the simplest solution to the most sophisticated multimedia and video conferencing integration.

Our wide array of services and solutions include:

- o Integration – Our expertise lies in planning, designing and integrating systems into facilities such as board rooms, conference rooms, training centers, educational facilities, marketing centers, and command/control centers. Our staff interfaces throughout every project with architects, consultants, facilities managers, IT staff, and corporate management.
- o Customized Systems – With CCS, you can expect a presentation system that's tailored to your unique application. We design, program, build, install, and service each system – from the simplest solution to the most sophisticated multimedia and video conferencing integration.
- o Turnkey Installation Services – Our technicians can install your equipment in the most demanding of environments from projectors and screens to control systems and more.
- o Maintenance Agreements – We offer standard 1, 2 or 3 year maintenance agreements with new system installations or we can custom tailor an agreement to fit your specific requirements.
- o Video Conferencing & Distance Learning – Having become a necessary part of the presentation and communication capabilities of any efficient organization, corporate or educational, CCS has worked with the leading providers to help raise the bar.

Take advantage of the buying power of one of the world's largest dealers as you plan your systems architecture. CCS can serve as your consultant in suggesting and reviewing products for the optimum balance of price and performance. When you purchase presentation technology from CCS you're also making an investment in your peace of mind.

Purpose of this Document

The primary reason for the development of this project scope is to ensure that CCS is proposing the level of functionality your organization requires for the installation of equipment in your facility. This document is proprietary, and may not be reproduced for distribution outside of Florida without the written consent of CCS Presentation Systems.

Lead Times

Lead times can vary greatly depending on the size of the project, the products to be installed, available labor resources and access to the work site. The materials required for a project are ordered after we receive your order and typically arrive within 2 to 3 weeks; custom products often take longer. Average lead time for project completion using standard product is 6 to 8 weeks. Please let us know your project completion requirements so we can assemble a suitable timeline.

System Narrative

CCS will provide and install a turnkey audio visual system into the following courtrooms:

255
264

CCS will provide the ability to Video Conference in CR 216.

CCS will provide a new AV system in the CR Annex.

CCS will provide a new AV system with Video Conferencing in the First Appearance.

A detail of the work to be completed is below.

CR 255 & 264

- (2) 90" 1920 x 1080 HD Flat Panels
- new presentation podium with laptop connections (VGA and HDMI), DVD Player, gooseneck microphone, local monitor, and touch panel control
- All necessary components to provide full routing control of all video and audio signals via the provided touch panels
- Preview and "Kill Content" feature for the Judges
- Touch panel control for the Judges including source select, volume control, display power, white noise (Sidebar), and content publishing
- (9) gooseneck microphones
- New Ceiling Speakers
- Audio DSP with proper amplification and programming
- Audio feed to Owner furnished court recording system
- PTZ camera to allow for the integration of Zoom web based VTC (in one CR only)

- Owner furnished lectern to remain. CCS will provide and install a new 6" touch screen/cable caddy in each lectern.
- 8 x 8 switcher in each CR
- Owner furnished racks will be utilized
- Owner furnished gooseneck mics will remain
- UPS System
- All necessary Zoom licenses (Zoom Room)
- All installation, programming, and testing

Annex

- One new wireless handheld mic system
- One new wireless lapel mic system
- New amplifiers (owner furnished)
- New programming to improve overall audio quality

First Appearance

- One new 60" display and wall mounting hardware
- Zoom license (Zoom Room)

CR 216

- Zoom license (Zoom Room)
 - All necessary hardware to make this room VTC capable utilizing existing displays
 - New PTZ camera and all necessary extension kits
-
- All pathways for new courtrooms to be provided by EC
 - All pathways for previously installed courtrooms have already been established.

Owner Furnished Equipment

CCS Presentation Systems does not warrant either directly or indirectly the functionality or serviceability of any equipment not sold directly through CCS. Any estimates made that reference OFE are made with the client's assurance that the equipment is functional and meets the standards as required by the entire system that is being implemented.

Unless stated otherwise, CCS will not perform any work in the setup, maintenance or integration of OFE equipment. CCS is not responsible for issues arising from the integration of CCS equipment with information systems such as security, software integration, data access or any other issue involving such integration.

Warranties and Maintenance

Unless stated otherwise, CCS Presentation Systems includes a 90 day installation warranty exclusive of manufacturer warranties. An installation warranty covers the work performed to assemble and connect electronic and mechanical components to create a working system. A manufacturer's warranty covers the system components and typically addresses only depot repair labor – labor performed by factory authorized personnel working in a repair center. The labor cost to uninstall / reinstall components and any associated shipping costs are covered by an installation warranty or maintenance agreement.

Statement of Performance

This statement of performance is intended to provide you with our working standards and expectations while planning and installing your system.

Customer Responsibilities: The following items are required by the Customer unless noted otherwise:

- Reasonable access to the installation site and suitable secure space for the storage of equipment before installation if required.
- Electrical infrastructure to provide power to equipment.
- Quality of electrical power. *CCS recommends that all electrical circuits supplying power to the system originate from the same power panel and phase. CCS will notify you of any hum or other problems resulting from power quality and aid you in finding a solution.*
- Conduits and cable pathways which require modifications to structure such as core drilling
- Quality of environment. *CCS will advise you of any unsatisfactory operating condition due to temperature, humidity, ventilation, mechanical structure or other safety concern.*
- Voice/data cabling and the configuration associated network and communications systems
- Millwork and furniture modifications such as holes for specialty boxes installed in tables.
- Structural modifications including reinforcement to support equipment loads, painting and resurfacing. *The most common modifications include wood backing in walls and repairs made to gypsum and lay-in tile ceilings. Also includes relocation of other building components such as HVAC and plumbing.*
- Quality of mechanical systems that may adversely affect the performance of an audiovisual system due to excess noise and/or vibration. *Excess vibration may affect devices we mount to structure, the most common being a projector which may exhibit motion in the displayed image. Excess noise competes with the sound we want to hear and can be especially troublesome for teleconferencing systems using microphones. If we encounter any noise and vibration problems, CCS will work with the owner to propose a solution.*
- Parts and materials delivered to the job site that have been accepted by the customer with a signature.

CCS Responsibilities: CCS Presentation Systems will complete the following:

- CCS will install all equipment in accordance with the manufacturers' specifications, national and local regulation ordinances and codes, including all OSHA guidelines. Unless specifically stated, all work will be performed during the normal working hours of Monday through Friday, between 8:00AM and 5:00PM, except for recognized holidays. CCS reserves the right to increase the installation fees if work must be completed outside normal business hours.
- CCS will run and terminate all low voltage cables and wires associated with AV equipment
- CCS staff and contractors will conduct themselves in a professional, courteous manner, maintaining a clean-cut appearance and acceptable dress. All CCS staff is expected to check in and out with you or an assigned contact at the beginning and end of the workday.
- CCS staff will maintain a clean and safe work environment. All unused materials, containers, tools and equipment will be removed whenever possible. CCS will take precautions to protect all floors, walls, windows and other surfaces from stains, marring or other damage.
- CCS will provide all operation manuals and warranty documents.
- CCS will acquire, assemble, deliver and test all specified equipment and components to provide you with a fully functional system.
- CCS will provide basic training on system usage and features to your staff immediately following completion of the installation.

Acceptance

This statement of acceptance is intended to secure proof that the customer is familiar with the CCS terms and conditions of this proposal, as contained herein.

Pricing Summary – Please see Equipment List for itemization

Payment Terms*

30% deposit at time of order,

50% upon receipt of equipment (stored in our warehouse and/or delivered to job site)

20% upon acceptance.

*Terms for new customers pending credit approval
