Project Overview

The St Johns County Utility Department (SJCUD) is planning for the expansion of the Northwest Water Treatment Plant (NW WTP) from a permitted capacity of 6-MGD maximum daily flow (MDF) to permitted capacity of 12-MGD MDF. The NW WTP is located on the north side of International Golf Parkway between Interstate 95 and State Road 16. The address of the facility is 3390 International Golf Parkway, St Augustine, FL 32092.

The previous NW WTP expansion was completed in 2012 with a permitted capacity of 6-MGD MDF. Some design consideration was incorporated for a future expansion to 9-MGD MDF. Overall, the goal is to deliver a project that reduces capital and/or operations and maintenance (O&M) costs, improves overall functionality, and/or improves finished water quality.

The minimum improvements for the NW WTP are as follows:

1. Evaluation and modification/replacement of the existing carbon dioxide (CO₂) feed and storage system to provide pH adjustment for conversion of all reduced sulfur compounds to volatile hydrogen sulfide (H₂S) gas
2. Addition of new forced draft degasifiers or other means for H₂S removal
3. Addition of a single-stage off-gas scrubber or other odor control system for H₂S treatment
4. Addition of a degasified water clearwell with transfer pumps for primary disinfection contact time and transport of finished water to the existing and future on-site ground storage tanks (GSTs)
